NUETECH TUBLISS® CORE

MOTOCROSS ACTION 5 STAR RATING!!!

- TUBliss® is a full circumference pneumatic rim lock which secures the entire tire bead to the rim, completely eliminating the use of a conventional tube!
- Without the weight and friction of a conventional tube installed, tire temperatures are greatly reduced.
- TUBliss® completely replaces the conventional tube while delivering several key performance features that's scoring points and lap times with racers and riders everywhere.
- TUBliss® protects the rim from dings and dents by holding the tire firmly and making the sidewalls stay upright and absorb the full impact, unlike bending and deflection of conventional tubes.
- A weight savings of up to 3 pounds per wheel instantly translates into less rotating weight and increases acceleration.
- Even if you get a tire puncture, the bead stays seated to the rim.

FRONT SIZE	STYLE	PART #	MSRP
21"	TUBELESS KIT	077-21TU	\$99.95
REAR SIZE	STYLE	PART #	MSRP
